

SahayakAI User Testing Prompts

User Testing Prompts (Complete Feature-by-Feature)

Last updated: 2026-06-10

Use these specific "Teacher Prompts" to test the AI output quality, cultural context, and accuracy across **every active module** of SahayakAI. The app now ships far more than the original eight tools, so this guide is grouped by area: AI teacher tools, assessment tools, classroom & attendance, content library & community, messaging, and account.

1. Home / Discovery (/)

Testing: Navigation and UI consistency.

1. **Search:** "Can I find community-shared lesson plans for 'Soil Erosion'?"
2. **Language:** "Can I switch the entire interface to Marathi and back to English?"
3. **Recent Activity:** "Do my recently generated items show up on the dashboard?"
4. **Navigation:** "Does the sidebar accurately lead me to the Worksheet Wizard?"
5. **Branding:** "Does the glassmorphism effect look consistent across different screen sizes?"

2. Lesson Plan Generator (/lesson-plan)

Testing: Pedagogy and Local Context.

1. **Science:** "Explain the process of Photosynthesis for Class 5 students in a rural primary school."
2. **Mathematics:** "Teach the concept of 'Money and Market' to Class 3 using only chalk and common household items."

3. **Geography:** "A 45-minute lesson on 'The Indian Monsoon' focusing on why it matters to farmers in Maharashtra."
4. **Social Studies:** "The story of India's Independence for Class 8, highlighting localized heroes from different regions."
5. **Multi-Grade:** "A combined lesson on 'Cleanliness and Hygiene' for Class 1 and Class 2 together in a single classroom."

3. Visual Aid Designer (/visual-aid-designer)

Testing: Artistic style, labels, and pedagogical logic.

1. **Biology:** "Draw a detailed, labeled diagram of a Hibiscus flower (Gudhal) showing the stigma, petals, and ovary."
2. **Physics:** "Create a simple blackboard diagram showing how a hand-pump (Boring) works to pull water from the ground."
3. **Astronomy:** "A sketch of the Solar System showing the relative positions of the Earth, Moon, and Sun during a Lunar Eclipse."
4. **Botany:** "A blackboard drawing of a Mango tree seedling showing the roots, stem, and first two leaves."
5. **Chemistry:** "A simple setup of a filtration process using a cloth, a pot, and muddy water."

4. Quiz Generator (/quiz-generator)

Testing: Cognitive depth, distractors, and teacher instructions.

1. **History:** "5 Multiple Choice Questions on the 'Life of Mahatma Gandhi' for Class 7 in Hindi."
2. **Environmental Science (EVS):** "A 10-question True/False quiz about 'Saving Water' with detailed explanations for why each is true or false."
3. **Advanced Science:** "3 'Hard' difficulty questions on 'Electric Circuits' focusing on Higher Order Thinking (HOTS)."
4. **Language Arts:** "A fill-in-the-blanks quiz based on a short story about an Indian festival (e.g., Pongal or Bihu)."
5. **Remedial:** "A very simple 3-question visual quiz about 'Identifying Parts of a Plant' for students struggling with the topic."

4b. Exam Paper Generator (/exam-paper)

Testing: Board alignment, chapter coverage, mark distribution. Generates a full exam paper from a chosen board / grade / subject and selected NCERT chapters. Output saves to My Library.

1. **CBSE Class 10 Science:** "Generate a full-marks exam paper for the chapters on 'Light' and 'Electricity'."
2. **State Board Class 8 Math:** "A unit test with sections for 1-mark, 3-mark, and 5-mark questions."
3. **Class 7 Social Science:** "A half-yearly paper covering the first four chapters."
4. **Chapter check:** "Pick a board/grade/subject that has no official chapters loaded. Confirm the app warns you to add a chapter instead of failing silently."
5. **Long-run:** "Start a large paper, then open My Library after a minute to confirm the saved paper appears."

5. Instant Answer Bot (/instant-answer)

Testing: Speed, fact accuracy, and video recommendations.

1. **Current Affairs:** "What is the significance of the Republic Day parade in India for a 10-year-old?"
2. **Quick Fact:** "Why does the Taj Mahal look yellow, and how can we protect it? Give a simple answer."
3. **Video Search:** "Show me how to make a paper airplane that flies far. (Testing for a YouTube search link)."
4. **Local Knowledge:** "Explain the importance of the 'Banyan Tree' in Indian villages for Class 4."
5. **Science Mystery:** "Why do we see rainbows after rain? Explain with a simple analogy of a shopkeeper and mirrors."

6. Teacher Training / AI Coach (/teacher-training)

Testing: Classroom management and soft skills.

1. **Management:** "How can I handle a student who is constantly talking while I am writing on the blackboard?"
2. **Inclusion:** "How can I make my Science lesson more inclusive for a student with a mild hearing impairment?"
3. **Motivation:** "Give me 3 quick activities to re-energize students who look bored during a Math class on a hot afternoon."
4. **Communication:** "How do I explain a student's poor performance to a parent who is very sensitive or defensive?"
5. **Professionalism:** "What are the core ethics a teacher should follow while using AI in the classroom?"

7. Worksheet Wizard (/worksheet-wizard)

Testing: Content extraction and student engagement.

1. **Comprehension:** "Create 5 fill-in-the-blank questions based on the uploaded textbook page about 'The Sun and Planets'."
2. **Creative Writing:** "Ask students to write 3 lines about their favorite character from the uploaded poem."
3. **Math focus:** "Extract the 3 word problems from this page and create 2 more similar ones for extra practice."
4. **Vocab focus:** "List 5 difficult words from this page and ask students to find their meanings in their local language."
5. **Activity-based:** "Suggest a group activity students can do in the playground based on the 'Seed Germination' chapter."

8. Rubric Generator (/rubric-generator)

Testing: Fairness and clarity in grading.

1. **Art Project:** "Create a rubric for a Class 5 project where they have to make a model of a 'Village Market' using recycled materials."
2. **Oral Presentation:** "A rubric for grading a 2-minute speech on 'My Ambition' focusing on confidence, clarity, and content."
3. **Essay Writing:** "A simple rubric for a 100-word essay on 'Importance of Forests' for Class 6."

4. **Group Work:** "Create a rubric to grade how students worked together during a 'Science Magic Show' group activity."
5. **Handwriting:** "A basic rubric for a cursive writing assignment in Hindi for Class 2."

9. Virtual Field Trip (/virtual-field-trip)

Testing: Itinerary flow and Google Earth integration.

1. **Heritage:** "Take my students on a tour of the 'Ajanta and Ellora Caves' to see the ancient rock-cut architecture."
2. **Nature:** "A trip to the 'Sundarbans' to learn about the mangrove ecosystem and the Bengal Tiger."
3. **Space (Meta):** "A virtual tour of ISRO's launch site (Satish Dhawan Space Centre) at Sriharikota."
4. **International:** "A trip to the 'Egyptian Pyramids' to show how ancient civilizations lived."
5. **Local Hero:** "A tour of the 'Sabarmati Ashram' to explain the life and simple living of Mahatma Gandhi."

10. Video Storyteller (/video-storyteller)

Testing: Story script quality and curated video recommendations. The page surfaces recommended videos by category (Top Recommended, Storytelling, Pedagogy) and generates story or video scripts.

1. **Storytelling:** "Write a short story script that teaches Class 4 the water cycle."
2. **Subject match:** "Do the recommended video categories reflect the subjects and grades on my profile?"
3. **Pedagogy:** "Recommend videos on activity-based teaching methods for primary classrooms."
4. **Language:** "Generate the story in Bengali and confirm the script reads naturally."
5. **Save:** "Save a generated script and confirm it appears in My Library."

11. Assignment Assessor (/assess-assignment)

Testing: Camera capture and AI grading of student work. Teacher photographs or uploads an assignment; the AI grades and gives feedback.

1. **Photo grade:** "Photograph a handwritten Math answer sheet and ask for a grade with feedback."
2. **Upload grade:** "Upload an image of an English essay and request a score plus improvement notes."
3. **Rubric link:** "Grade against a rubric you generated earlier and check the marks are consistent."
4. **Language:** "Confirm feedback can be returned in Hindi or Bengali."
5. **Edge case:** "Submit a blurry or partial image and confirm the app fails gracefully with a retry prompt."

12. Assessment Scanner (/assessment-scanner)

Testing: Bulk scan-and-grade of handwritten assessments. Distinct from the single Assignment Assessor.

1. **Scan:** "Scan a set of handwritten answer sheets and confirm each is graded."
2. **Retry:** "If a scan fails, confirm the error message points you back to My Library."
3. **Marks export:** "Check graded marks can be reviewed after the scan completes."
4. **TODO(verify: exact scan-to-class linkage and where results are stored in the UI).**

13. Content Creator Hub (/content-creator)

Testing: This is a hub that links to Visual Aid Designer, Virtual Field Trip, and Video Storyteller.

1. **Navigation:** "From the hub, open the Visual Aid Designer and confirm it loads."
2. **Navigation:** "From the hub, open the Virtual Field Trip and confirm it loads."
3. **Navigation:** "From the hub, open the Video Storyteller and confirm it loads."

14. Attendance & Parent Outreach (/attendance)

Testing: Class management, daily attendance, marks entry, and AI parent messages/calls.

1. **Create class:** "Add a new class with a few students and parent phone numbers."

2. **Mark attendance:** "Open a class (`/attendance/[classId]`), mark today's attendance, and submit."
3. **Marks entry:** "Record an assessment's marks for the class (`/attendance/[classId]/marks`)."
4. **At-risk view:** "Confirm the class view flags students who are at-risk academically or absent several days in a row."
5. **Parent message:** "Draft an AI parent message for an absent student in the parent's preferred language."
6. **Parent call:** "Trigger a parent call and confirm a transcript and summary are recorded afterward. TODO(verify: live call UI states; telephony provider is Twilio by default, Exotel when enabled)."

15. Impact Dashboard (`/impact-dashboard`)

Testing: Data visualization and reporting.

1. **Usage:** "How many lesson plans have I generated this month?"
2. **Students reached:** "Does the dashboard show students reached and classroom time saved?"
3. **Engagement:** "Does it show how many items I've shared with the community?"
4. **Mobile:** "Are the charts easy to read on a mobile screen?"

16. My Library (`/my-library`)

Testing: Personal saved content.

1. **Saved items:** "Do my saved lesson plans, quizzes, worksheets, and resources all appear here?"
2. **Open:** "Open a saved item and confirm it reloads exactly as generated."
3. **Create New:** "Does the 'Create New' shortcut take me to the right tool?"

17. Community (`/community`)

Testing: Teacher network and Staff Room chat.

1. **Staff Room:** "Open the Staff Room chat and confirm messages send and receive."

2. **Voice message:** "Send a voice message in chat and confirm it plays back."
3. **Connect:** "Find another teacher and send a connection request."
4. **Profile:** "Open another teacher's profile (/profile/[uid]) and view their shared work."

18. Community Library (/community-library)

Testing: Global discovery and collaboration.

1. **Subject Filter:** "Filter to see only 'Class 5 Mathematics' resources."
2. **Search:** "Search for lesson plans, quizzes, and more from the search bar."
3. **Save:** "Save a colleague's worksheet to My Library."
4. **Contributions:** "Does my shared content correctly display my name and profile?"

19. Messages (/messages)

Testing: Direct and group messaging.

1. **Direct:** "Start a direct conversation with a connected teacher."
2. **Voice:** "Send a voice message and confirm playback and duration display."
3. **Resource:** "Share a saved resource in a conversation."
4. **Unread:** "Confirm unread counts update correctly."

20. Notifications (/notifications)

Testing: Activity alerts.

1. **Display:** "Confirm new connection requests and chat replies show as notifications."
2. **Read state:** "Open a notification and confirm it marks as read."

21. My Profile / Avatar Creator (/my-profile)

Testing: Identity representation and photorealism.

1. **Traditional:** Generate an avatar for: "Saraswati Devi, a veteran primary school teacher from a village in Bengal."

2. **Young Professional:** Generate an avatar for: "Rajiv Sharma, a young Math teacher who loves technology."
3. **Regional:** Generate an avatar for: "Meenakshi Iyer, an English teacher from Tamil Nadu."
4. **Profile edit:** "Update your school, board, grades, and subjects and confirm they save."

22. Onboarding, Settings, Usage & Pricing

Testing: Account setup and plan management.

1. **Onboarding (/onboarding):** "Complete onboarding as a new teacher and confirm profile fields persist."
2. **Settings (/settings):** "Change your preferred language and confirm the interface follows."
3. **Usage (/usage):** "Review your usage counters for AI generations."
4. **Pricing (/pricing):** "View plans (free, pro, gold, premium) and confirm the page loads."

Tip

Try mixing languages! Ask for a Lesson Plan in English but with some **"Hindi keywords"** to see how the AI adapts to a multilingual classroom.

Note

Not yet live (placeholder / coming-soon screens): `/visual-aid-creator`, `/submit-content`, and `/review-panel` currently show "coming soon" copy. Use `/visual-aid-designer` for visual aids in the meantime.
